### 1) PICK A BAG MATERIAL

**Low Density LDPE**

The most common poly material used in bags. This material has a softer feel than High Density and offers greater tensile strength, clarity and flexibility.

**High Density HDPE**

Is twice as strong as Low Density poly and feels stiff in comparison with little stretchability. This unique material allows bags to be produced with either a translucent (frosty) appearance or a solid opaque look.

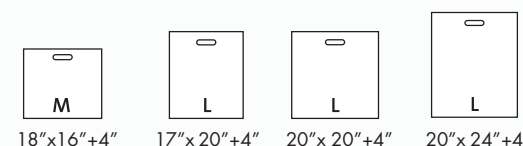

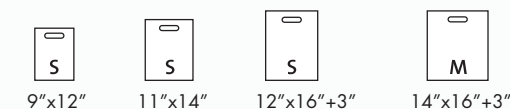

Consider adding our oxo-biodegradable option.

Add 10% to price.

## 3. Choose the Imprint Colour

When Foil Printing, select from 34 foil colours in 3 different finishes: Metallic (High Sheen or Matte), Flat, or Pearlized. For ink printing select from our 8 Standard colours for in stock items, or ask about Pantone Matching for Special Order items such as Simply Bags and Fabric Style Bags.
